Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Rejections Maintained

1. Claims 1-56 rejected under 35 USC 103(a) as being unpatentable over Weder in view of the English abstract of the Japanese Patent 47029902 for reasons of record in the last Office Action mailed on July 28, 2004.

Response to Arguments

2. Applicant's arguments filed January 28, 2005 have been fully considered but they are not persuasive.

Applicant argues that Weder does not teach providing a sheet material utilized to provide a decorative cover for a flower pot or floral grouping with a texture or appearance simulating the texture or appearance of paper. This is not deemed to be persuasive because the flower pot cover of Weder is formed from a sheet material. As for the texture or appearance simulating that of paper, the Japanese Patent was cited to show that embossing of polymeric sheet for simulating paper-like appearance or texture is known in the decorative sheet art. The combination of the references would provide for a decorative sheet for a flower pot cover or a floral grouping that would simulate paper-like texture or appearance by embossing and that the sheet would have additional printing, etc. for aesthetic decoration.

Applicant argues that the English abstract of the Japanese patent does not disclose any uses for the paper-like sheet taught therein. This is not deemed to be

Art Unit: 1772

convincing because the English abstract relates to a decorative sheet that exhibit paper-like characteristics.

Responding to applicant's allegation that the Japanese Patent does not teach providing the sheet with additional patterns, applicant should note that the Japanese Patent was cited to show that it would have been obvious to one having ordinary skill in the art of using emboss to simulate the texture or appearance of paper. As for the presence of additional patterns, it is clearly taught in Weder that the cover sheet can be provided with decorative patterns by embossing, printing, etc. See Weder, col. 3 line 64 to col. 4, line 9.

Thus, in the absence of any evidence to the contrary, it remains the examiner's position that the instant claimed invention would have been obvious to one having ordinary skill in the art as discussed above.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
